AERO SPECIAL INTEREST GROUP IN COLLABORATION
WITH
THE KNAER DATA VISUALIZATION PROJECT
~APRIL 3, 2013~

www.aero-aoce.org ~ info@aero-aoce.org

**SEEING WHAT IS BEFORE US:
THE USE OF DATA VISUALIZATION**

WHAT: In this Special Interest Group session participants are invited to bring a laptop and their own data as presenters share approaches to data visualization that have been explored as part of the KNAER project “The Use of Data Visualization Techniques to Share and Apply Toronto District School Board Research Findings”. The focus of the session will be to extend the use of common software that people are already familiar with (i.e. Excel, Powerpoint etc.) as well as provide an overview of more advanced techniques and applications.

This SIG will be of interest to anyone who works with data and is required to present it to stakeholders. At the end of the session, participants will have a greater understanding of data visualization, will have expanded their visualization repertoire and will have created a variety of visualizations with their own data that can be shared within their organizations. No knowledge of programming is required and will primarily be an introductory exploration of visualization with some more advanced examples toward the end of the day.

Registration is limited to 60 people and is on a first-come first-serve basis. Additional details regarding the kind of data to bring will be provided closer to the event.

WHEN: Wednesday April 3, 2013 (9:30 a.m. - 2:30 p.m.)

WHERE: Ted Rogers School of Management, Ryerson University

WHO: KNAER Data Vis Project Team Members
